

# Mentors for Success

# PREP LTC

Preceptor Resource and Education  
Program in Long-Term Care

## What is iPrecept?

iPrecept is a **free** society for long-term care (LTC) preceptors established by the Preceptor Resource and Education Program in Long-Term Care (PREP LTC).

It aims to build an environment that attracts, rewards and retains the best, most dedicated preceptors by acknowledging their crucial role in training and recruiting future LTC team members.

## How will iPrecept benefit preceptors?

**iPrecept** provides preceptors with online resources and opportunities to support professional development, personal recognition and overall success.

The society offers a space for preceptors to connect and collaborate with their peers to solve problems and improve the quality of LTC home placements and the experience of those living and working in LTC.

## How can preceptors provide feedback or suggestions about iPrecept?

The **#iPrecept** hashtag allows preceptors to communicate their feedback and suggestions. We encourage feedback through home team members (leadership), student placement coordinators or the **prepltc@the-ria.ca** email.

## Enjoy the recognition

from your team members and recruit other members.

Get a pin. Brag about your status.  
**You're different** – and now everyone knows it.

If you're interested in precepting, you can become a select iPrecept member who can:

- Tout what's to love about working in LTC.
- Inspire exceptional future team members.
- Thrill residents with first-rate care.
- Drive your professional advancement.

**Be your best. Train the best. iPrecept.**

## Join the Conversation Online!

Preceptors can also share their ideas on all Ontario CLRI social media channels. Twitter: @CLRI\_LTC, Facebook: @OntarioCLRI, and LinkedIn: OntarioCLRI.

# Mentors for Success

# PREP LTC

Preceptor Resource and Education  
Program in Long-Term Care

## What is iPrecept?

**iPrecept** is a FREE society for long-term care (LTC) preceptors. It acknowledges their crucial role in training and recruiting future LTC team members while providing resources and opportunities designed to support their professional development, personal recognition and overall success. **PREP LTC paid for the preceptors' pins and postcards that welcome them to the society.**

## What is the purpose of this new initiative?

As a culture change initiative, **iPrecept** will help LTC homes to:

- **Address** clinical placement shortages in the LTC sector.
- **Identify** solutions for addressing barriers and increasing capacity for clinical placements.
- **Provide** a positive, high-quality experience for students and preceptors.
- **Reduce** the administrative burden through effective engagement and retention strategies.

## How will iPrecept benefit long-term care homes and residents?

**iPrecept** will help to:

- **Reward** preceptors and acknowledge the vital role they play in LTC.
- **Attract and retain** qualified and experienced LTC preceptors to mentor students.
- **Improve** the lives of LTC residents by having fully trained team members and fully staffed LTC homes.

## How will iPrecept benefit preceptors?

**iPrecept** intends to provide preceptors with online resources and opportunities to support their professional development and build leadership skills. The society will offer a space for preceptors to connect online with #iPrecept, collaborate with their peers to solve problems and improve the quality of LTC home placements and the experience of those who are living and working in LTC.

## How can homes appreciate preceptors?

LTC homes receiving PREP LTC honoraria funds can use them to plan preceptor appreciation events. The funds can go towards hiring a party planner and photographer, buying decorations, food, and entertainment, and renting space to hold the event. A preceptor pinning party has a nice ring to it!

## LTC homes can contact their Regional Engagement Liaisons to request iPrecept welcome packages and learn more about the society.
